

heart:

The emotion, soul and passion of the business. The centre of everything.

The heart of smart control

smart:

Our solutions are intelligent, but intelligence can be seen as 'academic', but 'smart' is seen be practical and 'real-world'.

control:

The type of services, solutions and expertise we provide and what customers and end-users gain as a result.

InteliCompact^{NT} MINT

Gen-set Controller for Gen-sets in Multiple Parallel Applications

- > Compact gen-set controller for gen-sets operating in multiple island and/or parallel to mains mode (together with MainsCompact^{NT})
- > Built-in automatic load dependent start/stop system (power management)
- > Active Load and VAR sharing
- > Running Hours equalization
- > Full gen-set monitoring and protection
- > Possibility to connect up to 8 gauges to display engine values
- > True voltage and current RMS measurement
- > Outstanding EFI engine support (CAN/J1939, RS232/ModBus) with diagnostic messages in plain text
- > 3 phase generator voltage and current measurement
- > 3 phase busbar voltage measurement
- > 3 phase power measurement
- > 3 analog inputs
- > RS232, RS485, USB, ModBus, GSM/Analog Modem, Internet communication
- > GPRS communication and IC-NT RD (remote display) software
- > AirGate and WebSupervisor support
- > Support of active SMS Events or Commands
- > Event and performance log
- > 2 languages (user changeable)
